Gigantic Swede Will Be Heavily Backed in Match Against Kreig at Polo Club.

Anders Andersson, the wonderful Swede, who will wrestle Philip Kreig, seorge Bothner's pupil, at the New Polo Athletic Club on Thursday night, has hanged his mode of training. Instead of bending horseshoes the strong man now drives nails in four-inch boards with one hand. That is not a joke, for indersson really performs that feat, The Swede claims, through his inter-

over the mat, and says he will win in short order. He has picked up many points about the game and will be able to use his immense strength and 25 hounds of weight to a big advantage when he meets his opponent.

Notwithstanding the fact that Anderson has been in this country but a shortime, he has made hundreds of friends among the Swedish residents of New York, and the club at Fourth avenue and One Hundred and Twenty-ninth street will be crowded with his country-gen Thursday night, all ready to bet on the newcomer in the wrestling game. Although Bothner cicks Kreig as a sure winner, the big man is not without many friends among the wrestlers. A fumber of prominent followers of the sport expect to see Bothner's protege style match.

Authorities Take Right Step.

It is a question if the California turf authorities have not taken a good step forward in this matter. It has always seemed to the wird and over the world, the grame. The had to coher the ponty seven pins.

Would it not be fairer to disqualify this from first and give him the place, which position would have been his had the race been run true and clean? That seems the fair way of looking at the matter and that is what no doubt prompted the california officials in making this ruling.
